5 MC-questions about 5Cs, Industry 4.0 (2x), Swot and tacit/explicit knowledge 5 Open Questions:

What are the 4 main components of a Knowledge-Based System? (No description is required)

Considering the state-of-the-art in industrial maintenance systems and the undergoing digital transformation, what are the most plausible areas for enhancement in the near future? Use the following figure and define the potential areas in which maintenance of the future can be imagined.

Prisk of human failure

**Prince following figure and define the potential areas in which maintenance of the future can be imagined.

Prisk of human failure

**Prince following figure and define the most plausible areas for enhancement in the near future? Use the following figure and define the potential areas in which maintenance of the future can be imagined.

Prisk of human failure

**Prince following figure and define the most plausible areas for enhancement in the near future? Use the following figure and define the potential areas in which maintenance of the future can be imagined.

Prisk of human failure

**Prince following figure and define the potential areas in which maintenance of the future can be imagined.

Prisk of human failure
