

## Portfolio Self-Presentation

**Type of the methodology:** Type of presentation, documentation

**Description:**

Portfolio = Collection of achievements and applications, folder containing certain artefacts and objects, also techniques, methods, tools related to a certain subject

- Collection of person-specific achievements and projects
  - Presentation of individual know-how, knowledges, experiences, implementations
  - Also usable during the study at a university
  - Additionally: Reflection and evaluation of one's own work
- Notice - All factors are important: Structure, Design, selected Content

**Usage:**

*Areas of use* – in all domains needed

*Areas/Time of use* – to present one's abilities, skills, knowledge, and experiences

**Literature/Sources:**

- <http://alt-web.com/index.php#portfolio>

- <http://freelancefolder.com/20-inspiring-personal-portfolio-sites-you-should-explore/>

**Assignment in the course:**

- Combination of achievements, job applications, projects, artefacts created personally ...
  - Each student designs and implements a web-based portfolio, in order to capture and present the achievements and artefacts from this course, to show the knowledge gained in the course, as well as to present one's own ideas.
- Content:
  - Design of the portfolio – here: online, mobile (access through the Web)
  - Selection of an available platform or creation of a new web site
  - Design of a personal CI (corporate identity) with a layout design, choice of colours, graphics, etc.
  - Selection of personal achievements of the common project
  - Preparation and integration of the selected materials into the portfolio (what is what I want to show to others; how do others see my results and my knowledge)
- Portfolios will be graded at the end of the semester.
